

## Free STEM Schools Programme Primary 3 to Secondary 5/6

**Would you and your pupils like to find out more about engineering, the Forth Bridges and the construction of Queensferry Crossing?**

Book a free visit to our dedicated Contact and Education Centre in South Queensferry. We offer engineer-led STEM visits in our Exhibition Area, with audio/visual resources, information boards, interactive STEM challenges, bridge models, and spectacular panoramic views of the Forth Bridges.

Experience the scale and structure of the bridges by incorporating a walk across the Forth Road Bridge.

**Engineer-led visits at the Centre are free of charge**

# Book your school visit now!

## Primary Programme (P3 – P7)

- Bridges, Forth Bridges and Queensferry Crossing construction topics.
- Science, technology, engineering and maths based challenges.
- Classroom lesson plans for before and after your visit.
